The mass meeting held in Robbins' opera | made an address covering a period of about iouse last night was one of the most disgraceful affairs ever witnessed in this prough.

While a number of our prominent and espected townsmen took ourt in it, we are obliged to make this statement because the cause for it stands out in bold relief.

The HERALD sent a reporter to the meet ng for the purpose of making a full and securate report of all the proceedings; and sent him there to make a report of the mass neeting called for the purpose of getting the citizens to consider the advisability of establishing new water works.

It is with "profound grief, sorrow and indignation" (in the language of the resolution adopted by the regular water question meeting) that the HERALD announces its inability to devote space to an extended report of the meeting, on the question for which it was called-the establishment of new water works.

The vindictive spirit of some of our socalled enterprising and progressive citizens was so bold and tyrannical that the HER-ALD feels duty bound to spread it fully before the people, in order that they may judge for themselves just where certain mouth-pieces of the people stand.

THE WATER WORKS.

The people were slow in getting to Robbins' opera house last night, but when they did get there they formed a mass of humanity. The main floor and balcony were crowded.

At ten minutes of 8 o'clock James J. interesting that will surprise the people. If Francy, with a cane borrowed from ex-Chief of Police Roads, rapped upon the boards of the stage for order and moved that Monroe H. Kehler be made chairman of the meeting. Mr. Kehler was duly elected by voice, and M. E. Doyle, of the Sunday News, was made secretary.

Mr. Kehler made a brief address in which he recited the substance of the notices of the meeting and Mr. William Kimmel moved that J. H. Pomeroy, Esq., the borough solicitor, make a statement of the water company situation, as developed gins : by the recent law suit.

Mr. Pomeroy ascended to the stage

correspondent of the Sunday News,

Meanwhile Councilman Archie Lamb attracted the attention of the meeting by moving that a committee of five be appointed to act in conjunction with the comnittee of Council on the water question The motion was carried and the chairman appointed William Kimmel, M. E. Doyle, J. J. Francy, R. W. Stout and John F. Higgins.

While the appointments were being nade J. J. Francy, R. W. Stout and R. Stocker were engaged in appending their signatures to the electric rallway resolution that J. J. Francy had in his pocket when he asked for an expression of sentiments or the "T" rail question and which had been written for the occasion by the aforesaid orrespondent of the Sunday News.

It might be stated here that the chairman ecretary of the meeting and the editor of the Sunday News.

The Hamilton family tried to keep the matter quiet, but it would not down. On the contrary, as time passed the belief that Robert Ray Hamilton was alive grew stronger in those who thought most about the facts. Tourists returning from the region brought strange stories. The men who conducted the search were, with one or two exceptions, not acquainted with him in his lifetime, and not willing to swear the body was his.

Thursday, Oct. 1, to set all doubts at rest. Coroner Code left Market Lake Station with a party to disinter the body and hold an inquest. The body was exhumed, and certain marks upon it agreed so exactly with the description that had been taken along that all fur-ther doubt that Hamilton was dead was forever settled. The distinguishing marks were the

It is hoped the councilmen will act atelligently and liberally, and not be niluenced by the silly prejudices of a lique of disappointed dividend grabbers, The question to be decided is whether or ot the borough ordinance granting the right of way to the Mahanoy City, Shen-
